## **NEWS RELEASE**

### **PLEASE DIRECT TO THE FOLLOWING DEPARTMENTS ENGINEERING – PURCHASING – ACCOUNTING**

**For immediate release ..... August 18, 2009 - Warren, Michigan**

**E & E SPECIAL PRODUCTS** is now an independent Limited Liability Company. Although ownership and management remain the same, we are no longer a division of E & E Engineering, Inc.

We will remain at 7200 Miller Drive, Warren, Michigan 48092 for the time being; but please take note of our new logo, mailing address, telephone and fax numbers along with our new web address.

Most of the products we have offered over the years continue to be available while some of the slower moving and obsolete items will be eliminated. We will also be offering a variety of new items and products. All literature requests will be filled with existing catalogs and data until our supplies are depleted.

We are looking forward to concentrating all of our efforts in supporting, expanding and servicing the requirements of our various tooling communities with products that have proven their worth over the years.

In spite of these difficult times, we continue to explore, adopt new processes and adjust our manufacturing methods to insure the integrity you require in the products we provide while maintaining a competitive price.

We appreciate your business and support in the past and look forward to supporting your business in the future. Please feel free to contact me personally should you require more information or have any questions.

***Matt Hirzel***
