

Couplers

Features:

- 4140 Material
- Choice of Types
- Variety of Sizes
- Male or Female Threads
- Corresponding Adapters
- Black Oxide Finish
- Metric Sizes Available Upon Request

Types

E&E Couplers are designed for use with our standard Adapters or comparable details. They are offered in thread sizes common to a range of standard cylinders, and are available with metric threads upon request. Rod ends compensate for angular misalignment and allow the coupled member to rotate in both Rap and Non-Rap applications.
